

# How to Set up your AbiFit Sensor

Before you can use your AbiFit sensor you need to download and install the STS Secure app, and create an STS Cloud account.

To download the STS Secure app and create an account, you need to:

- 1. Access STS Secure app from App Store
- 2. Install STS Secure app
- 3. Open STS Secure app
- 4. Create an STS Secure account
- 5. Validate your email address

# **1. Getting Started**

## Download STS Secure app from Google Play and Create an Account

On your Android smartphone, select **Google Play** Store.

**NOTE:** If Google Play Store isn't on your home page, you will find it in *Applications*.

In the App Store search field, begin typing **STS Secure**.

Select **STS Secure** from the predictive search results.

The STS Secure app page will open.

#### **Install STS Secure app**

On the *STS Secure app* page, select **Cloud** icon (top right). The STS Secure app will download.

#### **Open STS Secure app and create an account**

When STS Secure is installed, the **OPEN** button shows. Select **OPEN** button (top right). The *Create an STS Secure account* page will open.

SECURE			
C	reate an STS Secure account to get started with STS Secure		
£	Name		
	Email		
	Password O		
B	/ tapping create you agree to STS Secure		
	Terms of Use		
	CREATE		

On the Create an STS Secure account page, enter:

- your Name
- your **Email** address. This will be your Username and it's where your notifications will be sent.
- A 6-digit **Password**.

Select **CREATE** button.

**NOTE:** When you get a pop-up message to allow notifications, select **Yes** so you will receive notifications from STS Secure.

Notifications

Do you want to receive push notifications and emails for alerts? You can change this later in your notification settings.

NO

YES

When the pop-up closes, select **CREATE** button again.

## Validate your email address

≡	Groups
	Let's connect your device
	+ CONNECT
	Don't have an STS Secure device?
	GET IN TOUCH

Before STS Secure processes your request and opens your iCloud account it first makes sure it has the right person by sending you a validation email, called: *Welcome to STS Secure.* 

Open and read the email, then select the **VALIDATE EMAIL ADDRESS** link.

You will receive a confirmation and your STS Secure iCloud account will be opened.

You can now return to the STS Secure app, where the *Devices* page displays.

The first screen will prompt you to add a device.

Tap the + CONNECT button

#### Tap on the SECURE AREA SENSOR

#### 2. Connect your AbiFit Sensor

On the *Secure Area Sensor* page you will be prompted to enter the device serial number.

On the *Secure Area Sensor* page, enter the **15 digit serial number** from the barcode inside the battery cover. and select **CONNECT.** 

Once connected, the New Group page will open.

## Enter the serial number CONNECT Don't have a device? GET IN TOUCH

÷	Group Details	
Group	2	
	Select a Group	>
What	is a group?	
Group at a ti locati	os allow you to manage multip me. Typically, groups are defir ion (eg. Backyard, Corridor, Gar NEXT	le devices led by their rage).

The next screen will prompt you to enter the device name. Name the device and then select **NEXT.** Name so it is easily identifiable ie: Jake's bedroom

The following screen will prompt you select or create a group.

Groups are used if you are monitoring sensors at different locations. Creating a group is not required for sensors in one location.

Select **NEXT.** If there is no group selected, another window will pop up. Select **OKAY** to create a new group or **CANCEL**.

Enter the name of your group Croup name Eg: Backyard, Garage NEXT	Enter the name of your group Group name Eg: Backyard, Garage NEXT
Eg: Backyard, Garage	Eg: Backyard, Garage
Eg: Backyard, Garage	Eg: Backyard, Garage

Name your group (if required) then select **NEXT** 

## 3. Set the Routine

←	Routine setup

← Routine	time DONE
Add periods want to rec	of time for when you eive alerts of activity
SUN	7:00 am - 9:00 pm Australia/Sydney
MON	7:00 am - 9:00 pm Australia/Sydney
TUE	7:00 am - 9:00 pm Australia/Sydney
WED	7:00 am - 9:00 pm Australia/Sydney
THU	7:00 am - 9:00 pm Australia/Sydney
FRI	7:00 am - 9:00 pm Australia/Sydney
SAT	7:00 am - 9:00 pm Australia/Sydney

The following screen will prompt you to set up the scheduled routine. To enter the days and times when you would like to be notified for unusual activity, select **ADD TIMES** 

#### **IMPORTANT**

Your AbiFit sensor monitors for rapid motion 24/7 but the app will only send SMS and/or email notifications when rapid motion **is detected within the scheduled routine periods.** 

Enter the times when you would like to be notified for unusual activity, then select the required days.

Select **DONE** 

Check the times are set as you would like and adjust if required by tapping on the time. Select **DONE** 

The *Routines* page will open.

Here you can add additional routines if required by clicking on the +

#### **Changing Locations – Advanced Settings**

The location should be set for the city where the AbiFit sensor is placed. If you (the app user) are in a different city, you will need to change locations.

Click on the Routine page

0	All day 00:00 - 23:59	
0	From 7:00 am	
0	To 9:00 pm same day	
Φ	Repeat SUN MON TUE WED THU FRI SAT

	Australia/Sydney	

At the bottom of the *Routine* page, click on the location The *Add Time Slot* page will open.

The *Available Timezones* page will open. Select the new location and press **OKAY** 

#### **Adding Secondary Carers to your Account**

Before starting, ensure the Secondary Carer has download the STS Secure app, created and verified their account.

On the top left-hand corner of the app click on the  $\equiv$  icon The menu will open listing Groups, Routines, Members, Notifications and Logout

Select **Members** and move to the next screen

=	Members
Member	s for this account
ante	Owner
	You can add others to your account so they can help keep an eye on things.

← Add user
Users will need to download the STS Secure app and register with their email address before they can be added as a member.
Enter an email address of an STS Secure user
<ul> <li>Enter an email address</li> </ul>
ADD

On the next screen select **Invite**, then click on the + in the bottom right corner of the screen

The next screen you will be prompted to enter the email address of the member that you are adding to your account. Enter the email address and then select **ADD** 

When adding another member another window will pop up asking to enter an account name. Enter their name and then select **OKAY**

Ask the secondary carer to follow these steps to switch to your account: Login to their STS Secure app (on their phone)

On the *Groups* page, select  $\equiv$  icon (top left), the *Menu* page will open

On the *Menu* page, switch to the account they have been added to (your account) and select **OK** 

The *Groups* page will open with a brief 'updating status' message. Your secondary carer can now access the AbiBird devices connected to your account.
